#### 3. Prospects

As part of the National Energy Transition Roadmap ("NETR"), Malaysia launched the National Biomass Action plan 2023-2030 ("NBAP 2030") on 7 December 2023. The action plan aims to establish biomass hubs to carry out centralised collection of biomass raw material to drive the national biomass supply chain systematically and efficiently whereby the biomass sector would be a catalyst for country's economy. This is part of the overall plan in helping Malaysia reach its sustainability objectives within the timeline, potentially expanding Environmental, Social and Governance ("ESG") focused market. In the medium and long term, the Group's strategy is aligned with the government's renewable energy initiative and global energy transition.

As we transform ourselves to be a full ESG focus engineering solutions provider, we are well positioned to capture growth opportunities and to play a significant role in the country's net zero transition as part of the wider NETR initiative. The Board is confident in delivering increased growth and improved profitability for the current financial year barring any external factors not within the control of the Company.
